

THE **HANDLE** COLLECTION

YOUR BOOK OF
INSPIRATION

BECAUSE **DETAILS** MATTER

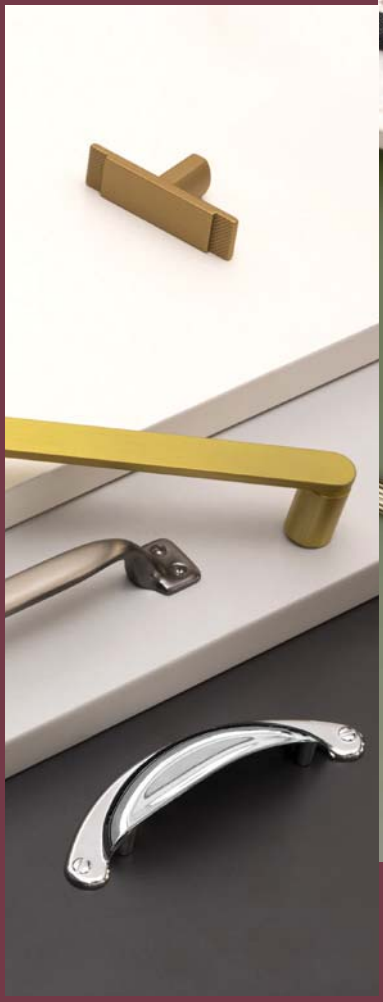

There it stands. Handmade, flawlessly finished and painted in that colour that you can't help but smile at, but your cabinetry's not finished, yet. Enter handles, knobs, latches and pulls – those finishing touches that enhance your cabinetry's artisanship and elevate its design, instantly and effortlessly.

Curated into three core collections, first you'll discover Elements. Think of these as elegant but also entry-level in terms of price before moving into Core and finally The Refined Collection, our most premium handles of all. Nestled between Core and Refined you'll also find our Colour Collection, featuring six sleek colour matched handles for a truly seamless and unique look.

To make choosing your handles as easy as possible, we've also grouped handles that share the same design language within each edit. Take Didsbury from our Core Collection. There's the knob, the bar and T-bar, so that you can have the same style of handle across your room but with subtle variation. You might want the bar handle on a drawer stack but knobs on a countertop cabinet, and this way, you'll satisfy both function and form.

From polished bright copper to smooth matt black and from contemporary chrome to classic cast iron, there's a world of options in the pages that follow.
